

A meeting of the Ventnor City Board of recreation was called to order by Chairman Beck at 6:40 p.m. On October 10, 2006 at our recreation building located in Ventnor Heights at Surrey and Balfour Avenues in accordance with the Sunshine Law.

Present: John Gallagher, Bart Beck Debbie Beirne, AJ Russo and Director Thomas.

Director's Report:

Fall classes going very well- most popular classes are still computers and the ball room and Latin dance classes.

“Lights in After School” on Thursday October 12, 2006 National Day of Recognition at the VECC 4:15pm. For all the after school programs that help children with homework, crafts while parents are still at work- a program where children are not left alone at home they are supervised.

Proposals were received to redo the little league field –to make it level from infield to outfield—big difference in grading in the outfield. The infield has been repaired over the years with adding dirt-

Chairman Beck wanted to see if the recreation department go get or hire a surveyor to come and give a professional opinion about the grading of the field instead of just getting prices from landscapers to bring in trucks of truck. He suggested that the board holds off on hiring anyone until this process is done—the board secretary was asked to contact Mr. Carter to see who he would recommend and forward this information to Director Thomas.

Motion to adjourn meeting by John Gallagher and Seconded by Bart Beck.

Respectfully Submitted,

Patricia Kedziora
